

Health Assessments

Did you know that anyone over the age of 75 is entitled to a free, comprehensive medical health assessment under the Government's Medicare programme?

Newtown Medical Centre is pleased to be able to provide this service to you.

We offer a 1 hour session with our nurse, and supervised by your own doctor, without any out of pocket expense to you.

It offers you and your doctor the opportunity to address any issues that may not have been apparent in your routine appointments, which are unfortunately, often limited by time.

Should any health issues be identified during your health assessment, there may be a need to follow this up further with your doctor at a later appointment, which can be arranged at the time of your health assessment.

All of our doctors encourage you to undertake a health assessment, offered yearly, at your earliest convenience.

Please call our reception staff on 5221 5044 to book your appointment and let them know that you would like to make an appointment for a comprehensive Health Assessment.
