

## Reminder and Recall Systems

At Newtown Medical Centre we have a positive focus on preventative health care. We send a variety of reminders out via SMS or post letting you know that you need to see your doctor for a review, to arrange tests or for referral to a specialist practitioner.

### Reminders include:

- GP Management Plan (Care Plan)
- GP Management Plan Review
- Team Care Arrangement
- Health Assessment 75+
- Health Assessment 45 – 49 year old
- Bone Density Testing
- Cervical Screening (Pap Smear)
- Cholesterol Screen
- Colonoscopy
- Immunisation
- Skin Check

### What do you need to do?

If you do get a reminder please contact the practice to make an appointment and let our reception staff know that you are booking for a “Care Plan Review” or “Cervical Screen (Pap Smear)” and they will do the rest.

### What if you don't want reminders?

You are able to opt out at any time if you would prefer not to get reminders. Simply follow the prompts when you get an SMS reminder, phone our reception staff on 5221 5044 or speak to your doctor.

### Questions?

Any questions please chat to your doctor or one of our practice nurses.
